BEAUTY CARE

Feature	Advantage	Benefit (for the product's user)
<b>GELTRAP technology</b>	Helps obtain a product with <b>high collagen content (30%) equalling more collagen in one dose.</b> Gelatinised water phase causes very effective penetration of active substances. After application, it brings pleasant sensory experiences on the skin.	Deep skin regeneration by, e.g. hydration <b>brought by the highest collagen concentration on the market.</b>
<b>Collagen hydrate with patented thermal and microbiological stabilisation technology</b>	Unique, exclusive technology on the European market. <b>The only product on the market with such parameters.</b> Microbiological stabilisation prevents the growth of microorganisms - user safety. Thermal stabilisation guarantees product stability at a temperature up to 32°C.	<b>The only such product</b> on the cosmetic market with such a high collagen concentration that does not <b>require storage in special thermal conditions.</b>
<b>Native collagen similar in structure to human type 1 collagen, with preserved protein and double helix structure</b>	Creates a film-forming layer on skin, which <b>prevents water loss</b> through the epidermis, at the same time <b>absorbing moisture from environment.</b>	Skin looks fresh, radiant and glowing; it retains <b>youthful appearance thanks to maximum hydration.</b>
<b>Melanin-rich collagen hydrate</b>	Thanks to melanin, it supports <b>protection against UV radiation.</b>	Skin that is properly <b>cared for all through the year</b> , even during summer.
<b>Marine fish collagen in a complex with silicon</b>	Collagen production stimulation. Works <b>directly on skin surface.</b>	The effect of tightened and smoothened skin noticeable after <b>just 2-4 minutes following application.</b> Significantly smoothenes out wrinkles.

<p><b>Naturalness index amounts to 98.5%</b></p>	<p>Guarantee that the products contains <b>98.5% ingredients of natural origin</b> as per ISO 16128 standard.</p>	<p>A natural product - <b>certified natural products or products of natural origin.</b></p>
<p><b>Four types of hyaluronic acid HYMAGIC 4D</b></p>	<p>HYMAGIC 4D are as many as <b>four types of hyaluronic acid of various size, which allows it to reach different skin layers.</b> The ability to absorb water is a benefit of hyaluronic acid. One molecule of the acid absorbs up to 250 molecules of water.</p>	<p><b>Skin hydration increased by as much as 155.1% after just one hour from application<sup>1</sup>.</b> Immediate, multi-layer hydration helps the skin remain smooth and elastic, providing unprecedented sensory effects on skin.</p>
<p><b>Cream application spatula</b></p>	<p><b>Hygienic use of the product</b> protects against possible growth of harmful microorganisms in the cream mass - a guarantee of safety for our skin during long-time use.</p>	<p><b>Safety and hygiene.</b></p>
